PERSONAL PROFILE

DATE OF BIRTH: July 28, 2001
AGE: 23
CIVIL STATUS: Single
NATIONALITY: Filipino

SKILLS

- Backend Development (PHP, Symfony, Laravel)
- Frontend Basics (HTML, CSS, JavaScript, Vue.js)
- Database Management (MySQL, SQL)
- API Development & Integration (RESTful APIs)
- API Testing (Postman)
- Version Control (Git, GitHub, Bitbucket)
- Unit Testing (PHPUnit)
- Bug Tracking & Reporting (Trello)
- Development Tools (VS Code, Visual Studio, Android Studio, IntelliJ, NetBeans, Eclipse)
- Local Deployment (XAMPP, WAMP)
- Cloud Deployment (Vercel)
- Project Management & Leadership

EMMANUEL BARRAMEDA

PROFILE

IT student focused on back-end development with experience in building RESTful APIs and Systems using PHP Symfony and Laravel. Skilled in fixing bugs, improving systems, and writing clean, reliable and structured code. Experienced in using tools like Git and Bitbucket for version control, Postman for testing APIs, PHPUnit for checking code quality, and Trello for managing tasks. Has a proven track record in working with teams, leadership, and improving back-end systems. Known for being detail-oriented and committed to building solid and efficient systems.

WORK EXPERIENCE

Bapplware Technologies Inc.

2025 - PRESENT

Backend Developer Intern

- Developed RESTful APIs using PHP Symfony, applying best practices for scalability, structure, and maintainability.
- Implemented structured API features such as timestamps, soft deletes, and exception handling, improving data integrity and error management.
- Delivered multiple backend modules for the HRP-API platform, contributing to seamless system integration and functionality.
- Wrote and executed unit tests with PHPUnit, enhancing code reliability and security.
- Utilized Trello for task tracking and reporting, documenting steps to reproduce, severity, and priority for efficient task management.
- Conducted thorough API testing using Postman, validating request/response data and ensuring proper authentication protocols.
- Employed Git and Bitbucket for version control, managing repositories, resolving merge conflicts, and collaborating effectively with the development team.
- Contributed to basic front-end structure and styling using HTML, CSS, JavaScript, and Vue.js when needed.
- Specialized in backend development using PHP Symfony, focusing on bug fixes, API development, and feature enhancements.
- Participated in Agile sprints and followed iterative development practices to support continuous integration and delivery.
- Collaborated with business analysts, developers, and QA testers to align technical solutions with project goals.
