WORK EXPERIENCE

Software Engineer

January 2026 - Present

Casterly Ventures Corp.

Pasig City, Philippines

- Promoted within 6 months for delivering three production systems, coordinating directly with the CEO, operations, sales, and warehouse teams to define requirements and adjust based on feedback.
- Migrated production from Cloudways to a self-managed Hostinger KVM4 VPS, cutting annual hosting costs by 72% (PHP 40,320 to PHP 11,544/yr) with 4x RAM and 2x CPU.
- Set up CI/CD pipelines via GitHub Actions with zero-downtime deployments and managed Redis queue infrastructure with 8 workers, cutting deploy time by 70%.
- Reduced IMS page load time from 4-6 seconds to under 2 seconds through composite MySQL indexes and Redis caching; integrated Google Drive API for automated report backups.
- Shipped a POS system with barcode scanning alongside sales and operations staff, cutting job order release time by 50% across 3,700+ transactions, and replaced a manual Excel process with a real-time Warehouse Management System.

Software Developer

July 2025 - December 2025

Casterly Ventures Corp.

Pasig City, Philippines

- Delivered a full-stack IMS processing 3,700+ ITAD devices through an 8-stage workflow with role-based access control, architected as a modular monolith with a service-layer pattern, coordinating with operations to gather requirements and refine the workflow.
- Automated hardware spec extraction via Blancco/SpecCy XML parsing, saving an estimated 120+ staff hours by cutting about 2 minutes of manual entry per device.
- Added real-time workflow updates via Laravel Reverb (WebSockets) and queue-based PDF generation, cutting report wait time from minutes to seconds.
- Delivered **casterly.ph** with a custom FilamentPHP CMS with 7 content modules, used by 10+ non-technical staff to manage site content without developer involvement.
- Developed **shop.casterly.ph** with 45+ product listings, a full order lifecycle, COD payment integration, promo codes, and automated shipment tracking notifications via TrackingMore API.

Backend Developer Intern

February 2025 - April 2025

Bapplware Technologies, Inc.

Mandaluyong City, Philippines

- Delivered 15 RESTful API modules for the HRP-API platform in PHP Symfony within a 3-month Agile sprint cycle, collaborating with senior engineers through code reviews, Trello-based sprint tracking, and daily standups.
- Applied error handling, soft deletes, and data integrity standards across all 15 REST API endpoints with full PHPUnit test coverage to catch regressions before deployment.

Freelance Developer

June 2020 - January 2025

Remote (Concurrent with studies)

- Shipped a desktop Employee Management System for the Philippine Air Force HSSG using Java Swing, managing 100+ employee records with role-based access control and reporting.
- Delivered a 12-module Internship Management System for the University of Rizal System as a capstone project using Laravel and FilamentPHP, serving admin, student, and professor users.
- Developed a 10-module seafarer management system for a private client using Laravel and FilamentPHP with facial recognition attendance and real-time application tracking.
