About Me

Emman is a Software Engineer and full-stack PHP Laravel developer specializing in modern web-based systems using Laravel, FilamentPHP, Livewire, TailwindCSS, Alpine.js, MySQL, APIs, and AI integrations. Currently working at Casterly Philippines, with hands-on experience in building internal management systems, eCommerce platforms, corporate websites, and business operations tools that support real company workflows.

Experienced in both backend and frontend development, with a strong focus on creating efficient, maintainable, scalable, and user-focused systems. Skilled in project management, database design, system architecture, CI/CD deployment, and collaborative software development.

CORPORATE PROJECT

CASTERLY IMS

PHP, Laravel, FilamentPHP, TailwindCSS, MySQL, API

Casterly Integrated Management System (IMS) is a corporate web-based operations platform designed for managing ITAD workflows and device processing, helping track inventory, assessments, grading, statuses, and refurbishment operations.

The screenshot displays the 'Laptop Assessment' form for a specific laptop. The form is divided into several sections: 'Top Cover', 'Front Bezel', 'Palm Rest', 'Bottom Cover', 'Hinge Status', 'Screen Condition', 'Touchscreen Status', 'Keyboard Language', 'Keyboard Layout Style', 'Keyboard Status', 'Trackpad Status', 'Touch Pad Status', 'Webcam Status', 'Speaker (Left)', 'Speaker (Right)', 'Device Power Status', and 'Power Button Status'. Each section contains a dropdown menu for selecting the status of the component. A 'Track Workflow' button is located at the top right of the form.

CORPORATE PROJECT

CASTERLY IMS

PHP, Laravel, FilamentPHP, TailwindCSS, MySQL, API

The screenshot shows the 'Laptop Assessment' form. At the top, it says 'Assessment > Laptop' and 'Laptop Assessment'. Below this, it says 'Previewing the completed Assessment for Laptop CVC-CASSG-S35-00000257'. There is a 'Track Workflow' button. The form is divided into sections: 'Item Specifications' (with fields for Item Ownership, Serial, Barcode, Category, and Brand/Model), 'CPU Specifications' (with a field for CPU and an 'Add CPU Specifications' button), 'RAM Specifications' (with a field for RAM and an 'Add RAM Specifications' button), and 'Storage Specifications' (with a field for Storage and an 'Add Storage Specifications' button).

Assessment Form

The screenshot shows the 'Laptop Refurbishing' form. At the top, it says 'Refurbishing > Laptop' and 'Laptop Refurbishing'. Below this, it says 'Previewing the completed Refurbishing for Laptop CVC-CASSG-S35-00000257'. There is a 'Track Workflow' button and an 'Edit Refurbishing' button. The form is divided into sections: 'Parts Used / Replaced' (with a toggle for 'No parts were used / replaced' and a 'Check this if the item was completed without replacing or using any parts' checkbox), 'Parts List' (with a 'Collapse all' / 'Expand all' toggle and a list of parts with status indicators like 'Issue - Top Cover', 'Fixed - Palm Rest', 'Fixed - Bottom Cover', 'Fixed - Screen Condition', and 'Issue - Battery Health (%)'), and an 'Add Manual Part Entry' button. At the bottom right, there is a 'Stage Completed' button.

CORPORATE PROJECT

CASTERLY CORPORATE SITE

PHP, Laravel, FilamentPHP, TailwindCSS, MySQL, API, Livewire

A screenshot of a lead generation form. It includes fields for Email, Phone Number, Company, and Position. There is a large text area for a message. At the bottom, there are checkboxes for agreeing to terms, adding to a newsletter, and a CAPTCHA verification. A 'Submit' button is at the bottom right. To the right of the form is a photo of a woman with long blonde hair and glasses, wearing a pink shirt, sitting at a desk with a laptop.

Leads Fill-up Form

A screenshot of a Leads CMS dashboard. It features a 'Leads' header with 'Refresh', 'Import', and 'New Lead' buttons. Below are four summary cards: '320 Total Subscribed Emails', '14 Total Unsubscribed Emails', '0 Total Bounced Emails', and '0 Total Pending Emails'. A filter bar shows 'All 325' and tabs for 'Subscribed', 'Unsubscribed', 'Bounced', and 'Pending'. A table with columns for Customer Name, Company, Role, Phone No., Email, Source, Added Date, and Representative is shown. The table is currently empty, displaying a 'No records found' message with a search icon and 'Open Filters'/'Clear Filters' buttons.

EMPLOYEE PAYROLL SYSTEM

Java GUI, OOP, MySQL, API

The screenshot shows a Java Swing window titled "UPDATE EMPLOYEE SALARY". It features a search bar at the top with the text "Search Employee ID: 1". Below this, there are several input fields: "Employee id:" with value "1", "Date of Birth:" with value "07/01/01", "First name:" with value "Juan", "Basic Salary:" with value "50000", "Surname:" with value "Dela Cruz", and "Department:" with value "IT Department". At the bottom, there are radio buttons for "Update Salary by:" with "Percentage (%)" selected. Next to it are input fields for "Percentage:" (value "10") and "Amount:" (value "0"). To the right of these fields, the text "Total Basic Salary: ₱ 50000" and "Salary after Update: ₱ 55000" is displayed. At the bottom right, there are three buttons: "Calculate", "Update", and "Clear".

Salary Management

The screenshot shows a printed document titled "PAY SLIP" with a timestamp "Fri Jun 09 19:51:37 SGT 2023". It is divided into three main sections: "EMPLOYEE DETAILS", "SALARY", and "DEDUCTION". The "EMPLOYEE DETAILS" section lists "Name of Employee: Juan Dela Cruz", "Designation: Coding", and "Department: Coding". The "SALARY" section lists "Basic Salary: P55000", "Overtime: 10000 Hours", "Medical: P500", "Bonus: P500", and "Other: P0". The "DEDUCTION" section lists "Total Deductions: P1000". At the bottom, the "TOTAL PAYMENT" section lists "Total Earnings: P3751000.0" and "Net Pay: P3805000.0".
