PROFESSIONAL SUMMARY

Full-stack Software Engineer with 5+ years of development experience across freelance and corporate roles, developing and delivering web applications, RESTful APIs, and internal systems from planning through deployment. Specialized in PHP and Laravel on the back-end, with the ability to work across the front-end stack including JavaScript, Tailwind CSS, and Alpine.js. Experienced in Agile workflows, CI/CD pipelines, database design, query optimization, Redis, and Linux server management. Published open-source libraries with a track record of building scalable, maintainable systems for real-world business needs.

WORK EXPERIENCE

Software Engineer

Casterly Ventures Corp.

January 2026 – Present

Pasig City, Philippines

- Promoted within 6 months for leading delivery of three production systems.
- Migrated production to a self-managed Linux VPS Server (Ubuntu 24.04, Nginx, CloudPanel), cutting hosting costs by 72% with 4x more RAM and 2x more CPU cores.
- Built atomic GitHub Actions deployments and managed Redis queue infrastructure (8 workers), reducing deploy time by 70%.
- Developed a POS system with end-to-end purchase order fulfillment, streamlining sales workflows.

Software Developer

July 2025 – December 2025

- Designed and built the corporate website (casterly.ph) full-stack with a customizable CMS for dynamic content management.
- Built the e-commerce back-end (shop.casterly.ph) with order processing, payment integration, promo codes, reviews, and real-time shipment tracking via TrackingMore API.
- Developed a full-stack Integrated Management System (IMS) for ITAD operations using Laravel/FilamentPHP, replacing manual processes and streamlining 2,200+ devices through an 8-stage workflow with optimized MySQL queries and scalable architecture.
- Implemented automated Blancco/Specy XML data parser, role-based access control, and queued batch reporting (Excel/PDF).

Backend Developer Intern

Bapplware Technologies, Inc.

February 2025 – April 2025

Mandaluyong City, Philippines

- Built and shipped multiple RESTful API modules for the HRP-API platform using PHP Symfony, with structured error handling, soft deletes, and PHPUnit testing following Agile workflows.

Freelance Developer

Remote

June 2020 – January 2025

- Delivered custom systems for clients including the Headquarters Service Support Group (HSSG) of the Philippine Air Force (Java Swing) and University of Rizal System (PHP, Laravel, FilamentPHP).

PROJECTS

Filament Take Picture Field | *PHP, Laravel, FilamentPHP, Composer Package*

Open Source Initiative

- Created and maintained an open-source FilamentPHP form field plugin for capturing images directly from the browser camera, reaching nearly **20 GitHub stars** and over **8.3k downloads**.

Laravel Scheduled Maintenance | *PHP, Laravel, Queue, Composer Package*

Open Source Initiative

- Modernized and maintained an open-source Laravel package for scheduling maintenance windows, showing downtime notices, supporting bypass links, and queue-based maintenance bypass for Laravel 10, 11, and 12.

IOTC System (Freelance Capstone Project) | *PHP Laravel, FilamentPHP, MySQL*

June 2025 – August 2025

- Built a full-stack seafarer application system covering submissions, exams, interviews, and status tracking with a FilamentPHP admin dashboard.

MMC MIS (Capstone Project) | *PHP, Laravel, FilamentPHP, MySQL*

September 2023 – March 2025

- Led the team as Project Manager and Lead Developer in developing a Management Information System for Mabuhay Methodist Church, streamlining administrative workflows; awarded **Best Software Developmental Study** among the graduating batch at the 18th Campus Research Congress.
